PUMPING Frontwing 1980

ketos · France · 1980 cm² · 1200 mm span · AR 7.3 · chord 165 mm

<https://www.ketos-foil.com/en/pumping-en/pumping-frontwing-1980/>

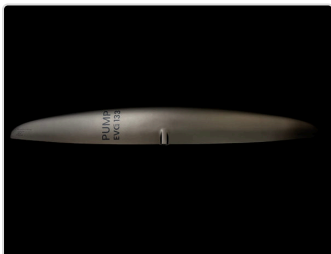

The Ketos155 LR (Long Range) Pumping Dock Start Wing: Designed to conquer new distance records.

ketos · France · 1770 cm² · AR 14.0

Pumping Wing: Tailored for Flat Water and Ultra-Long Distances Want to shatter your distance records without sacrificing speed? This wing glides like our 1570LD, lifts like the EVO133, yet turns precisely like the Kobun 133. It's the best of all three worlds, designed for you to truly enjoy your sessions. This full carbon wing features a Konnect fitting...

PUMP EVO LITE 133 PROGRESSION FRONT WING

ketos · France · 1770 cm²

The Pump Progression wing for effortless pumping for over 2 minutes It accompanies you from your very first steps to learning turns, acceleration, beach starts, and more. We sell this wing to many riders who started on thick foils that quickly kill their legs and cardio, and who were looking for a second wing that remains accessible but offers a great...
